Keeping Nyambu authentic natural ecotourism village

Positive changes have started to take place in Nyambu ecotourism village following efforts by the British Council in partnership with Diages Indonesia and Yayasan Wisnu to unlock the potential of the village.

In 2015, the British Council, together with Diages Indonesia and Yayasan Wisnu, has supported the development of Nyambu village as an ecotourism destination in Bali. The project was initiated by the British Council through the Social Enterprise (SE) and the Social Innovation (SI) programs. The project aimed to promote local entrepreneurship and sustainability in the community.

The social action projects are initiated by the British Council that aims to provide social leadership training for communities, which promotes intercultural and social development that is planned and conducted by the communities themselves.

Following the training, the communities were given the opportunity to apply for funding for their social action projects through the Active Citizens Social Action Programme.

Organized by the British Council in partnership with Diages Indonesia, the September 2016 application in part of the Active Citizens Agenda that aims to promote individuals to participate in networks, establish contacts, and explore new opportunities for community action in the Active Citizens Program.

The program is being implemented through the Social Action Project Showcase in Nyambu, Tabanan, Bali.

The program aims to support the development of Nyambu village into a better ecotourism village.

The initiative is in line with the British Council's commitment to promote sustainable development and facilitate partnerships that support the communities and local governments in Indonesia to achieve their goals.

The initiative focuses on promoting entrepreneurship and sustainable tourism in the community.

Group discussion: The participants of Active Citizens reflect on their journey in implementing Social Action Projects in their communities during a workshop in Bali.

Carrying out social action projects
